

# PRESCRIPTION FOR DISCHARGE

Zero Tolerance. Infinite Risk.

I was starting to get chronic back pain from standing for long periods of time on duty, so I took a few leftover OxyContin pills from an old injury. I popped positive during a random drug test and couldn't prove that I had a legitimate prescription. Now my back pain is the least of my troubles.

**Protect your life and your career.**

**Use prescription drugs the right way:**

- 1** Take correctly.
- 2** Report promptly.
- 3** Dispose properly.
- 4** Never share.
